Hop

w Nothing Party.

The hopes of the opposition to the Democracy are in a future union. This was foreshadowed in a speech made in Congress by J. W. Davis, of Maryland; and we have constant outgoings to the same effect from the Know-Nothing party. A union was tried previous to the Presidential election, and effected in several of the free States; especially on State tickets. It was seen, however, that Sam had no strength of his own, and the colored Republicans paid him little respect therefore. They calculated they would gain by a union with Sam. Happily, the demerits of faction destroy each other, to the great benefit of the country. It is now hoped that a better time is coming. The Know-Nothings flatter themselves that Sambo will come down a little, the Kansas question being settled, and the late decision in the Dred Scott case putting them at some disadvantage. On the other hand, the saints can be frightened a little at the Pope, and a good deal at foreigners. Thus the factions, by approximating each other, and filling up the vacant space with a cement of the spoils, can form a union in 1860—get up some log-cabins and hard cider, and a little more grape, and thus achieve the chief end of man—the possession of the spoils. The Sommers Gazette thus administers comfort to the brethren:

The crumbling away of the Republican power, the division of the South, and the political success of great sectional army, will politically benefit our party, because the American mind, in its normal condition, makes no distinction between the two parties, and unites in our platform. The Democrats have but few friends in the North, and whenever this efficient reorganization of the party is effected, we sincerely believe that the heart of the people will immediately respond to the patriotic calls of the American party.

The editor of the organ here has strong claims on the colored brethren. He gave them all the aid and comfort he dared; and since the election he has made some demonstrations against the decision of the Supreme Court. He will not go so far in this latter direction, lest the South become alarmed, and forbid the contemplated union. The organ will be on both sides at the same time; and ultra either way, as occasion may require.

The affair will be rather delicate to manage; but the faithful will generally acquiesce, as they are not particular, so they win. The Richmond Whig has not yet taken the hint. The editor is somewhat dull. Perhaps he will deem altogether. He thinks Sam is done for. Speaking of the late American party, he says:

Now there any prospect, so far as I can judge, of its being restored? It has been almost completely annihilated and absorbed by the Democratic and Black Republican parties; and we really think there is no hope for it in the South, if it is not either, in any reasonable period of time, if it be possible.

However this may be, the Democracy may rest assured that the opposition will be in time, vigilant and active. The incongruous elements now that own the political cauldron, will produce a prodigious boiling and bubbling; moderately now, but when the heat is applied, the stirring and effervescence will be terrific. The danger to be avoided by them is an explosion, that will blow the whole mess to the ends of the earth. If they can escape that calamity, we shall see a revival of all the ills that have infested the country, with the addition of as many more. It will not be a Republican nor an American party, but something new, whose features and name are yet to be revealed. Of course, the Union will have to be saved again, for the hundredth time; for it is always in imminent danger once in four years. The Union, the Pope, foreigners, principle, patriotism, mingled with a few shrills about slavery up toward the North Pole, will be some of the elements of the contest.

In this contest this city is to cut a figure, of course. Disinterested as she always is, regardless of her own interest when the Union is to be saved, and religion is in peril, owing to the "potentates" of the Pope, Louisville will wade in, and croak and shriek after her usual fashion.

We think it a mistake to suppose that the next contest will be like the last. Sam is worn out in the service; Sambo is run down, and can't be moved again. Something else must be invented. There are too many restless politicians who must work or spoil. These ambitious aspirations are under a cloud. They will make a terrible struggle to get power and pelf. They are possessed with the idea that they are made for great exploits, and must fulfill their destiny.

Oh, Shocking!

We don't know what to do with the poor croakers and shriekers. They have been in fits over Kansas for two long years. They have informed the rest of mankind that the Border Ruffians were propagating slavery by fire and sword in that Territory; and they have croaked and shrieked over it desperately. Now, these Border Ruffians declare that the question whether Kansas shall be a free or a slave State, has never been in issue in that Territory at any time. Whereupon the croakers utter a scream that is truly piercing. The great Kansas question never was a question at all in that region. How the South has been deceived and betrayed.

The poor Know-Nothings have been deceived, and betrayed their poor deluded disciples—that is all. From one end of this Union to the other, the Democracy have proclaimed that the question whether Kansas should be a slave or a free State, was not at issue. The question was, whether Congress should control the subject of slavery there; and say whether it should or should not exist.

The Democrats of Kansas have proclaimed, that the question whether Kansas shall be a free or a slave State, has never been at issue. Isn't that shocking? This proves, show the croakers, that the South has been deceived and betrayed! It only proves that the croakers and shriekers have been lying like the D—l—that's all; and that will not astonish or surprise anybody. The rest of mankind are too much accustomed to it to be shocked by any fresh development of mendacity.

When the Constitution is formed, or about to be, the issue will naturally come in its right place, and it will be decided without reference to other questions. With that the people of Kansas are concerned, and no others have anything to do with it. Men supported the Kansas bill in the Territory and out of it—some who preferred free, and some slave States. The shriekers and croakers tried to make a false issue, but it was never accepted anywhere. And now, when their falsehood is exposed, they affect to be shocked at somebody's perfidy, instead of being ashamed of their own mendacity.

## The Ambitious Coachman—Romance in Real Life.

The following letters were received by the Committee of Invitation, and read at the Guthrie Dinner. We take pleasure in furnishing them to our readers, as they are glowing in compliment towards our distinguished citizens which the grand ovation was given:

WASHINGTON, March 23, 1857.

**Messrs. U. E. Ewing, Geo. A. Caldwell, James Trabue, R. B. Hopkins, Jos. B. Kinkaid, Committee of Invitators.**

I send the honor to receive to-day your letter of the 18th inst., inviting me to present at a public dinner, to be given at the Galt House, on Thursday evening next, by the citizens of Louisville and Jefferson county, to your distinguished fellow-citizen, Hon. James Guthrie.

Daily intercourse, for more than four years, with him whom you thus propose to honor, has enabled me to comprehend why it is that the people of Louisville and his native State have accorded to him the place in their confidence and affection which he has so long and so steadily held.

From the hour on which we first met to that on which we regrettably parted, the rare combination of qualities which make up his exalted character became the brighter and more conspicuous. One of his officers told me that the railroad iron had been thrown off on the morning of the accident the boat would have been extricated. It was not until that night and the next day that this was done, and as the river fell very fast during the day, it did very little good. Very little hope was now entertained of saving her. All the freight, with the exception of five barrels of molasses, was saved, and yes—successive. One of her officers told me that the railroad iron was thrown off on the morning of the accident the boat would have been extricated. It was not until that night and the next day that this was done, and as the river fell very fast during the day, it did very little good. Very little hope was now entertained of saving her. All the freight, with the exception of five barrels of molasses, was saved, and yes—successive. One of her officers told me that the railroad iron was thrown off on the morning of the accident the boat would have been extricated. It was not until that night and the next day that this was done, and as the river fell very fast during the day, it did very little good. Very little hope was now entertained of saving her. All the freight, with the exception of five barrels of molasses, was saved, and yes—successive. One of her officers told me that the railroad iron was thrown off on the morning of the accident the boat would have been extricated. It was not until that night and the next day that this was done, and as the river fell very fast during the day, it did very little good. Very little hope was now entertained of saving her. All the freight, with the exception of five barrels of molasses, was saved, and yes—successive. # Louisville Democrat.

SATURDAY.....MARCH 28, 1857.

## Personal.

Dr. O. S. Fowler, the great Phenologist, will commence his lectures at Mozart Hall, in this city, on Tuesday evening next.

Vice President Breckinridge reached his home in Lexington, Thursday evening. He was expected at the Guthrie dinner, in this city, but unavoidable engagements in the East prevented his return home in time to be present at the entertainment.

Charles W. Klessendorf, a young gentleman of this city, lately attached to the Niagara army, having arrived in New York, was expected to reach his home in this city last night.

The following distinguished gentlemen, among others, were invited to be present at the dinner to Ex-Secretary Guthrie, at the Galt House, on Thursday evening, expressed their regrets that pressing engagements precluded the possibility of their attendance: Ex-President Pierce, Ex-Secretary Marcy, Gov. Morehead, Ex-Governor Letcher, His Honor Major Barber, and Messrs. Charles Anderson and John W. Stevenson.

It will be seen by our telegraphic dispatches that Robert J. Walker has accepted the appointment to the Territorial Government of Kansas, and will proceed to his new charge without delay.

**Prof. HOLYKE'S READINGS.**—The variety readings of Prof. Holyoke last evening before the Young Men's Christian Association, was as we promised it would be, one of the most pleasing entertainments ever offered to the public by that Association. Critically, we have no exception to make to the readings, save perhaps, a slight fault of voice, arising from a cold under which the Professor evidently labored. Added to a remarkable natural taste, Mr. H. has the advantage of rare study and cultivation. The unusual power which he possesses over his auditors was evinced last evening in their rapt attention and undivided sympathy for the reader. He read two extracts and two poems, reciting the latter with great effect. While we have those in our midst so eminently fitted to entertain us, why should we pine for public instruction, or send abroad for intellectual education?

The local editor of the Journal evinces a taste for a controversy with this department of our foil, upon the subject of the late eclipse. If we could permit ourselves to be led out, we could have no fears as to the popular verdict touching the force of the argument; for, through the Journal's misrepresentations, doubtless a hundred thousand eyes watered with straining and disappointment, on Wednesday afternoon. There was a period when our contemporaries justly enjoyed a reputation for brilliancy and wit; but, alas! this last attempt at our expense marks in its history an era of decadence—for a definition of which term Webster says, "See Decay."

**BURGLARY.**—We stated a few days ago that a carpenter's shop in Jefferson street, a few doors above the East Baptist Church, had been entered by burglars during the night and robbed of a quantity of tools. The tools belonged to Lewis Zweidorf and Jeremiah Hollingshead. Edward Johnson has been arrested, charged with committing the robbery. He was brought into Police Court yesterday for examination, but his case was continued till to-day.

**COUNTERFEITER.**—Walker West, a young fellow from Scott County, Ky., was before the Police Court yesterday, charged with passing a \$1 counterfeit note on a gentleman named Yarborough, in this city, on Thursday. A quantity of counterfeit money was also found in his possession, and he was held in \$400 to answer the charge of uttering counterfeit money. He was committed.

**DEATH OF MISS GALE.**—The Sheffield (England) Times reports the death of Miss Sarah Gales, in the 55th year of her age. She was the last survivor of the three sisters of the late Joseph Gales, of Raleigh, South Carolina, United States, who left Sheffield in 1794 on political grounds. With these ladies James Montgomery, the poet, resided for more than half a century.

**McCLAIN.**—C. M. Clay, Esq., has a communication in the Mountain Democrat, of the 26th inst., in which he details some of the annoyances and expenses he is subject to by "fox hunters." He says he loses annually one hundred dollars' worth of sheep, and that his entire force employed on week could not put up the fences for hunters leave down after them. Go it, Cassius!

**THE SIDEWALKS.**—The sidewalks in First street, between Market and Jefferson, have long been in a bad condition, and citizens whose business and inclinations induce them to resort to that thoroughfare, will be pleased to learn that the old pavements are soon to be replaced by new ones. Mr. J. M. Wells has a contract from the city for the work.

**THE NEW CITY SCHOOL BUILDING.**—The new city school building, at the corner of York and Fifth streets, when completed, will be one of the handsomest edifices in the city, and will be remarkably adapted to school purposes. This structure is intended to supply the place of the building which was burned about two years ago, and is almost complete.

**LADY DAY.**—The 25th of March was known in "merry England" as "Lady Day," and was the day when annual rents were generally collected. It has ever been celebrated by the Church as the anniversary of the "annunciation" of the mysterious incarnation of the Saviour to the Virgin Mary by the Angel Gabriel.

**FIRE.**—The alarm of fire, about 4 o'clock yesterday afternoon, proceeded from a residence in Washington street, between Preston and Jackson, and was caused by a bearded accidently taking fire. The fire was extinguished without other damage than that which occurred to the bed.

**W. M. CLARK.**—Wm. Clark, an unsophisticated Hoosier, was accustomed to our style of liquor, and accordingly, fell under its influence up town on Thursday. Judge Johnston deals leniently with first offenses, and let William off, yesterday, with a moral exhortation.

**COUNCILMAN OVERALL.**—Overall has introduced a resolution into his branch of the Council, to have the bridge over the Beargrass at Broadway entirely reconstructed. The improvement is very much needed, and we are glad to see that the resolution was adopted.

**THE CLAIMS OF THE STREET HANDS.**—The claims of the street hands of the two districts for the first half of the present month, were allowed by the Board of Common Council Thursday evening.

**THE STEAMER EMPIRE.**—We are indebted to our friend J. W. Lynch, Esq., clerk of the steamer Empire, for New Orleans papers and other river favors.

**THE STEAMER EMPRESS.**—We are indebted to O. L. Smith, Esq., clerk of the fine Express for the latest New Orleans papers and other favors.

**THE CITY WHARF.**—The city wharf, between First and Brook streets, is soon to be graded and paved.

**SINKING OF THE GRAPESHOT.**—We announced yesterday morning that a collision had occurred between the steamers Grapeshot and J. H. Oglesby, at an early hour Thursday evening, in the bend of the river just below New Albany. Our informant was mistaken as to the latter boat, it being the Gov. Powell which ran into the Grapeshot. The collision was doubtless the result of mutual misapprehension as to the signals. A large hole was made in the larboard side of the Grapeshot, but her pilot was enabled to run her to the Kentucky shore, where she now lies, her starboard side being entirely out of the water. Her rear cable floor is under water, however, as also her larboard side, but the receding water will doubtless leave her high and dry upon the embankment, when she may be fully repaired and launched. Her cargo was from Memphis, consigned principally to Cincinnati; 25 bales cotton, Robbin & Pomeroy, Cincinnati; 25 bales cotton, Mason & Bro., Baltimore; 3 coils line and lot sundries, Jones & Cooley, Pittsburg; 415 bales cotton, Merrick & Co.; 37 bales cotton, Merrick & Co.; 2 cases glassware, J. B. Lyon & Co., Pittsburg; 1 box books, Webb, Gill & Levering, Louis ville; 1 trunk, T. P. James, Rising Sun.

**THEATER.**—The performances last night were enjoyed by the audience, especially the comedy of Sweethearts and Wives; it was capitally performed by all engaged.

To-night Mr. C. C. Hamilton takes his bene fit, and presents as a bill the Daughter of the Regiment and the Rake's Progress. Of course his friends will give him a crowded house. He deserves it, for he is one of the most painstaking and studious actors of the company; his characters evidence study and a determination to succeed. In his own peculiar line, his performances are always excellent. Give him a full house.

**HIGHLAND MESSENGER.**—This blooded horse is the property of S. R. Womack & Co., may be seen at the stables of Mr. George W. Womack, on the Shelbyville turnpike, near Middletown. He is one of the best bred horses in Kentucky, in studious conquisitiveness, one of the most talented, gallant, and chivalrous of their number. It was under his lead that the glorious old first were reinstated. He is the pride of the Democratic fires of the days of Matthew Lyon, and by the power of his eloquence and oratory was almost crushed out and exterminated. All the other figures between Persia and Afghanistan, England will arbitrate.

Lord Palmerston said in the House that the treaty was in all respects better than Persia offered to accept at Constantinople.

Other articles are unchanged.

**RESERVE YOUR HAIR.**—To those who are not aware that each particular hair on the head is a hollow tube, through which the fluids circulate which convey nourishment, and impart its peculiar shade of color, it seems incomprehensible how restoratives can produce a renovating influence. While preparations of this nature were entrusted to such hands, we are compelled to believe that the Democratic party in the glorious old first was reinstated.

Mr. Burnett, and the Know-Nothing members, have declined a re-election, and that Mr. James Johnson, of Owensboro', is a candidate for the vacancy in his place, and Hon. Samuel O. Peyton has announced himself as the candidate of the Democracy. In all the upper and central districts the subject is also attracting much attention.

I desire, however, to speak only of those districts, now known as the Democratic districts, in some of which there seems to be some danger of a disastrous clash of aspirants. And I desire to speak of those districts at this time, because their members will soon be at home, and the active operations of the canvass will soon commence.

In the first district it is believed that Mr. Burnett will have no opposition from any party; or he has any, that it will be too feeble to induce the apprehensions of his friends. The Radical Democrats and Hickory Anti-slavery, in late date, the two Democratic organs of the district, both speak in the most confident terms of his re-election, and both express the opinion that it is due alike to him and the generosity of the district that he should be returned. It would indeed be a serious loss to the Democratic party of the State, and if Mr. Burnett were withdrawn from Congress or from active political life would be a heavy blow to the Democratic party of Kentucky. In studies conspicuous as one of the most talented, gallant, and chivalrous of their number. It was under his lead that the glorious old first were reinstated.

He is the pride of the Democratic fires of the days of Matthew Lyon, and by the power of his eloquence and oratory was almost crushed out and exterminated. All the other figures between Persia and Afghanistan, England will arbitrate.

To-night Mr. C. C. Hamilton takes his bene fit, and presents as a bill the Daughter of the Regiment and the Rake's Progress. Of course his friends will give him a crowded house. He deserves it, for he is one of the most painstaking and studious actors of the company; his characters evidence study and a determination to succeed. In his own peculiar line, his performances are always excellent. Give him a full house.

**HIGHLAND MESSENGER.**—This blooded horse is the property of S. R. Womack & Co., may be seen at the stables of Mr. George W. Womack, on the Shelbyville turnpike, near Middletown. He is one of the best bred horses in Kentucky, in studious

**J. L. DEPENN & CO.**

**1857 SPRING. 1857**

**IMPORTANT**

**Notice to the Trade!**

**THE UNDERSIGNED, LICHTEN- LOEWENTHAL & CO.,** pioneers in the Clothing Trade of Louisville, do not intend to keep any Clothing on hand after April 1st, and will therefore close their stores, and are still manufacturing, preparing for the usual rush commencing with the month of March, and having no time to be occupied during the next two months and a half.

**In view of the proposed result no time will be spared to make their stock the most desirable in the Western Territories.**

**One of the firms being permanently located in New York, in order to obtain the cream of every importance in their line, and for the purpose of manufacturing, will be compelled to leave New York, and now enabled to hold our engagements to purchasers with whom we have contracts.**

**Everything belonging to the tailoring trade constantly kept in store.**

**Prominent customers, and cash customers in particular, will find investments made with the under-signed firm the most profitable that can be made in express.**

**Local discounts allowed on payment.**

**LICHTEN, LOEWENTHAL & CO., Corner Main and Fifth sts.**
